Self-drive Tips

In Spain, the vast majority of roads in the national network are free to use.

Driving Licence – You will require an International Driving Permit (IDP) if you possess a non-European driving licence.

Road Rules – There are speed limits of 120 kilometres per hour (km/h) on dual carriageways and motorways, 100 km/h on conventional roads, 90 km/h on all other roads and 50 km/h in built-up areas. If there is a solid line on the road, lane changing is not permitted.
