2019 Gender Pay Gap Report
We are committed to employing a diverse and inclusive team and to the principles of equal opportunities and fair and equitable treatment for all.

Keeping the focus on our gender pay gap allows us to attract, retain and develop a diverse workforce, tapping into a wide spectrum of ideas, knowledge and talent to build on for the future.

There is much, much more we can and will do to champion diversity and inclusion in the workplace and I look forward to supporting this and other great initiatives as we move forward.

The figures submitted have been calculated using the standard methodologies required by the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017.

I confirm that the calculations and the data provided for Hertz UK are accurate and in line with the above reporting regulations.

“There is much, much more we can and will do to champion diversity and inclusion in the workplace and I look forward to supporting this and other great initiatives as we move forward.”
Understanding the Gender Pay Gap

The data is combined of the UK Rent-A-Car, Headquarters and Hertz Accident Support workforce which accounts for over 1,000 employees and includes a variety of roles ranging from Customer Service and Claims Administration, to Maintenance and Sales, to Finance, to Human Resources and Marketing.

The calculations are based on pay data at the “snapshot” date of 05th April 2019 and bonuses paid over the 12 months prior, in line with gender pay gap regulations.

Interpreting the Gender Pay Gap Data - Mean and Median

The **Mean** is the average of the total of all hourly rates for men and women within the UK workforce.

The **Median** is the mid-point of hourly rates when listed in order.

Percentages

Throughout the report we use percentages to illustrate the gap between men and women's pay. A **positive %** indicates that the pay gap is in favour of men. A **negative %** indicates that the pay gap is in favour of women.
